

# CYBER FINAL CHAPTER

## Final Judgment

Fairness

justice

peace

Love

```

public void CollapseRandom() { if
(!this.Modules.Any()) //一个可选模块都没有
{ throw new
CollapseFailedException(this); }
if (this.Collapsed)
{ throw new Exception("Slot is
already collapsed."); //此Slot已坍
缩 } float max =
this.Modules.Select(module =>
module.Prototype.Probability).Sum();
//所有可能性累加 float roll =
(float)(InfiniteMap.Random.NextDouble() *
max); //获取Roll值 float p = 0;
foreach (var candidate in this.Modules)
{ p +=
candidate.Prototype.Probability;
if (p >= roll)
{ this.Collapse(candidate);
//在可选模块中随机选择一个
return; } }
this.Collapse(this.Modules.First());

```

### BACKGROUND:

In the near future,  
human consciousness can be digitized and stored through  
coding,  
the body can be strengthened with drugs, or replaced with  
a prosthetic body,  
and even the brain can be transformed and strengthened.

While technology makes people happy, it also makes people  
lost in illusion.

When the upper-level consortium destroys the social  
contract, justice and fairness disappeared, which will cause  
social unrest such as violent murder and robbery.

```

candidate.Prototype.Probability
(p >= roll)
{ this.Collapse(candidate);
return; } }

```

# CYBER SOCIETY

EFRA

**Extreme  
technology**

## Aim

- Barbaric society
- Loss of humanity
- Expansion of desire
- Indulgence and destruction
- Lost self

what is the meaning  
of life?

רוח-נו שר"ל ל-370

In the extreme technological environment,  
human nature is exposed completely.

What is the meaning of life when material  
and desire are saturated?

People's desire to control everything, kill,  
plunder, indulge and destroy.

How can human beings develop in a society  
without restraint and barbarism?

The project attempts to awaken humanity  
towards peace and equality, and to rethink  
their rights and meaning, to see pure self.

Warn mankind, the vastness of the universe  
and the smallness of mankind, we need to  
treat the world with compassion.

Human society must one day truly realize  
freedom, equality and justice.

- Thinking and warning
- Peace and love
- Equality and justice
- See pure self

# Concept

## THE BIRTH OF RELIGION

Religion originated from primitive people's reverence and worship of the unknown natural phenomena under the condition of extremely low social level

## THE BOOMING TECHNOLOGY

makes human beings become more and more arrogant. Humans feel that they can control everything without fear.

However, there have also been some movies in which robots in turn devour humans

- <automat>
- <Kill Command>
- <Ex Machina>
- <Eagle Eye>

## Newton- The End of Science Is Theology.

Science is endless. There is too much dark matter that humans don't know, and the universe is too vast. Pride will lead humanity to destruction

Is there a space for gods at the end of the ultimate cyberspace to re-establish people's awe?

## Extreme Technology

society

body disappears,

consciousness (soul)

upload

Enter the four-dimensional

virtual space

"Cyber God" (*super database*) makes rules, Crime must be punished (*Dante's principle of proportionality between crime and punishment*) and the purify of the soul. *Like in Buddhism, bad people go to hell after they die*

The soul is forced to accept God's trial, using ultimate rational technology to provide fairness and justice.

This is the salvation of the soul, and finally to the pure land to find a pure self. And treat everything in the universe with awe.

Atonement---  
purification---  
to pure land--

## Methodology

### 1. Watch a science fiction movie , some movies in which robots in turn devour humans

<automat> <Kill Command>  
<Ex Machina> <Eagle Eye>

### 2. Religious belief books --- 《Buddhist scriptures》

In Buddhism, good is rewarded for good, and evil is rewarded for evil.  
Buddhism warns people to be compassionate  
Reincarnation in Buddhism

### 3. The mystery of the universe documentary

Human visible matter accounts for less than 5% of the total mass of the universe. We don't know about 96% of the physical existence, which we call dark matter and dark energy. Science is endless Dark matter can also be called god

### 4, Carl G. Jung - 《The self》

Cyber Core: Exploring the True Self

### 5. Dante- 《Divine Comedy》

The book describes the experience and feelings of Dante's dream in the Three Realms, starting from the sad hell and ending with the bright heaven.  
Let people experience hardships,, get rid of mistakes, and achieve goodness and truth.

## Create a virtual God

Dr. Manhattan<sup>™</sup> body  
modify reality, control time and create life  
Horus Eyes- The right eye defeats evil. Left eye maintains happiness  
Piccolo Skin- Have regeneration ability

Metaphor of technology as a god

Soul consciousness enters space

God means Absolute justice

Projection trunk

Descent elevator

**Judgment room**  
the soul accept the judgment of God

**Hell**  
Guilty people accept relative punishment

**Purgatory**  
Wash the soul, the factory of pure soul

**Heaven**  
all beings are equal, no distracting thoughts

## Design analysis

**Service target:**

humanoid wave line  
(brain wave , soul)  
without gender

**located:**

virtual four-dimensional space

**Function:**

Conceptual design,  
meaningful space,  
Let human to think

Human-shaped waves enter the virtual four-dimensional space from the carrier (special elevator)

# 审判

## 1. Judgement

Wave line soul, put on a machine to read the memories of life, supercomputer (God) have big data analysis, determine whether they are guilty

Reference:

Inspired by Buddhism, people will be judged by Hades in the underworld after death.

There are too many crimes of ancient feudal superstition, and I set three major crimes based on the social background of the near future era.

# 地獄

Punishment tools and devices

Kill

Betray country

Fraud

## 2.Hell

Since there are three types of criminals, I divide hell into three areas, and people with different crimes receive different punishments.

Reference:

In Dante's "Hell", a core concept of punishment is called contrapasso, The meaning of "crime and punishment are proportionate"

Punishment tools and devices:

I researched ancient Chinese punishment tools and devices, and build the basis for punishment devices in each region

## Research about Punishment Tools and Devices in Ancient China

地獄

### Fraud and plunder

1. Cut the human wave, feel the pain
2. Upper and lower sharps are compressed, causing pain
3. Blenders, Mix and stir waves, produce pain
4. Restore the humanoid wave device after all is completed

### Kill

1. Pecked by a mechanical arm imitating a bird's beak
2. Electric fire grilled
3. Reorganize the wave chain in the device to become an insect
4. Struggle in an insect petri dish
5. Restore the humanoid wave device after all is completed

### Betray

1. Wearing a helmet and being tortured by an electron gun
2. Body waves were tortured in the bomb jar
3. Tormented by the motor
4. Restore the humanoid wave device after all is completed

# 炼狱

## 3.Purgatory

Reference:

In<Divine Comedy>, people have seven desires that need to be purified.

Dante's Purgatory has seven layers, spiraling up shape. At each level, people accept different experiences and eventually go to heaven.

For different desires, take different measures

Pride- boulder pressing down

Jealousy- eyes are sewn,

Wrath- Surrounded by Black Smoke

Lazy- sports shout

Greed- Immobile

Gluttony- unable to eat,

Lust- Burning Fire

I used these symbols to create a space to purify the soul.

I used the seven measures in this books to make seven devices to purify desire Like a factory line

### 3.Purgatory Details

# 炼狱

Overcome  
pride  
Stone pressure

Overcome  
jealousy,  
purify eye mask  
device

Overcome Wrath  
Head smoke  
emotion  
management  
device

Overcome  
laziness  
Circulating  
sports device

Overcome  
greed  
Device for  
extracting

Overcome  
Gluttony  
Abdominal  
starvation  
device

Overcome lust  
grilled body  
device

# 朝圣

## 4.Heaven

There is no beauty, ugliness, good and evil, all beings are equal, everyone is samelook.no distracting thoughts.

### Reference:

No matter how high the waves are, there will be the moment when they fall, and the future of humanity will have a glorious era, but after that, it will also go to twilight.

-----<Take care of god > Liu Clxin

Everything will disappear in the end, we have to be compassionate.

佛言善男子是諸衆生若於夢中  
 夢墮地獄受諸苦惱即生悔心哀  
 我我等自招此罪若我今得脫是  
 罪者必是惡業已即知正法  
 見是惡業已即知正法  
 胎前胎後胎中胎外胎內胎外胎內  
 以是因緣得全奇哉我女受  
 之乳舖長養護我身以是義故  
 利當棘思色養侍衛隨順供養犯  
 四重禁及無間罪臨命終時念是  
 大乘大涅槃經雖墮地獄畜生餓  
 鬼天上人中如是經典亦為是人  
 持在十箇六月歐陽明鈺敬書

 敬書

## The Ending

At the end of the cyber, the soul has experienced self-consistent and tempered, facing the parallel universe in its best appearance.

A peaceful fairness equality and nice result

In the future, our demand for the function of living space may reduce, because we are more adaptable, We may have robotic bodies, I hope the meaningful space can make people rethink.

# CYBER ENDING

Fairness

justice

peace

Love
